## Internet Access

### Find a Provider

Use the link below to find companies that provide internet access in your community. Just enter your zip code and search.

[Find every provider in your area.](#)

### Get the Best Deal

Once you know who the providers are in your neighborhood, find low-cost plans that you may qualify for based on income. Common low-cost providers in Chicago are linked below. Coverage varies by neighborhood.

- [Internet First by Astound](#)
- [Access from AT&T](#)
- [Spectrum Internet Assist](#)
- [Verizon Forward](#)
- [Xfinity Internet Essentials](#)

Other plans may be offered in your neighborhood. [Find your provider.](#)

### Special Promotion

[\*\*T-Mobile's Project 10Million\*\*](#) offers residents with children who are K-12 in the same household a free Internet hotspot that will provide mobile access for students to do homework and related tasks. The hotspot service will be active for 5 years and there is no contract for this service. This is a great opportunity for families with school children! Families must qualify with SNAP or Medicaid.

You can use the link below to apply. If you have questions about the application process, please call [\(312\) 913-7979](tel:3129137979).
